Reference No. : 14 - 05

Issue Date: April 2010 (ES)

NOA A/C

A high build, two-pack epoxy tiecoat anticorrosive designed taking health, safety and environmental issues into consideration. Combined with NOA 10 F, the system provides good adhesion to various kinds of antifouling and finishes (chlorinated rubber, acrylic, epoxy, urethane, etc.)

It is overcoatable, allowing unlimited overcoating intervals, in combination with NOA 10 F and also for the various kinds of finishes in above water areas.

This paint does not affect the polishing of antifouling adversely. This tiecoat is applied for all coating systems of outer hull areas.
